Hi Kathy and Liz,

These are the accompanying plans to the specification set I sent yesterday.? Let me know if you have any trouble opening these.? Please note that DOF is planning on amending these based on new LIDAR data we just received.? It should not change the substance of your review, but you will receive an addendum once that is complete.

Thanks,

Subject: NWOD Segment 1 Plan Set

Dalton, Olmsted & Fuglevand, Inc.
Environmental Consultants

Here are the Plans for NWOD segment 1. These are set up to print as 11"x17" of at full D size on a plotter. Just set the paper size when you print.

This is the current drawing set. We are still working on re-calculating volumes for sediment and slope flattening based on the new LIDAR data. We also need to redo the sediment thickness plots on the excavation plan view sheets based on the new LIDAR data and subsequent adjustments of the EarftFax data. We should have this done later this week at which time we can issue addendum with revised drawings.
